

senior engineer

UI/Front-End

📍 Bangalore 🏢 Full time 🕒 3-5 yrs

We are looking for a qualified UI/Front-end developer to join our IT team. You will be responsible for building the 'client-side' of our web applications. You should be able to translate our company and customer needs into functional and appealing interactive applications.

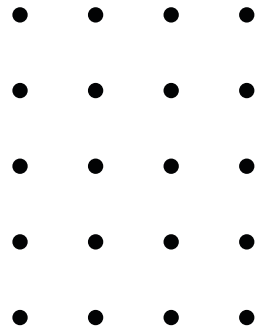

If you're interested in creating a user-friendly environment by writing code and moving forward in your career, then this job is for you. We expect you to be a tech-savvy professional, who is curious about new digital technologies and aspires to combine usability with visual design.

Ultimately, you should be able to create a functional and attractive digital environment for our company, ensuring great user experience.

who we are

Betterplace is a technology platform designed to hire, manage, and engage the blue-collar workforce with ease with our all-in-one lifecycle platform. Designed for large enterprises, the platform enables you to manage end to end lifecycle of your blue-collar employees. Device – agnostic. Customizable. Scalable. Uniquely digital.

what we're looking for

- Expertise in Data Structures and Algorithms.
- 2+ years of experience on ReactJS/React Native, Redux
- Excellent proficiency in front-end technologies (Javascript/HTML/CSS/Bootstrap/React and related frameworks)
- Good understanding of web-pack, CSS pre-processors of front end architecture, and optimization.
- Good to have expertise in NodeJS
- Good to have working experience with microservices
- Understanding of design frameworks, UX patterns for the web.
- A growth mindset and passionate about building things from the ground up.
- Must have worked in a startup environment prior.
- Immediate joining preferred.

what you'll get

- Health Benefits
- Innovation-driven culture
- Smart and fun team to work with
- Friends for life ☺
