

senior software engineer

react native

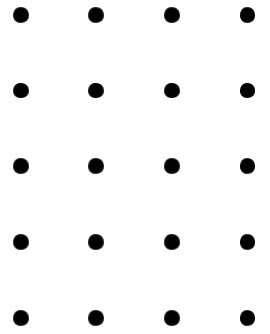

📍 Bangalore 🏢 Fulltime 🕒 4-7 years

We are looking for a React Native developer interested in building performant mobile apps on Android platform. You will be responsible for architecting and building the applications, as well as coordinating with the teams responsible for other layers of the product infrastructure. Building a product is a highly collaborative effort, and as such, a strong team player with a commitment to perfection is required.

who we are

Betterplace is a technology platform designed to hire, manage, and engage the blue-collar workforce with ease with our all-in-one lifecycle platform. Designed for large enterprises, the platform enables you to manage end to end lifecycle of your blue-collar employees. Device – agnostic. Customizable. Scalable. Uniquely digital.

what we're looking for

- Strong development and fundamental knowledge of React Native. Minimum 2-4 years of hands on experience in React Native is required for this position.
- Well versed with Mobile Application Architecture and good understanding of Software Design and implementation.
- Firm grasp of the JavaScript language and its nuances, including ES6+ syntax
- Rock solid at working with third-party dependencies and debugging dependency conflicts
- Familiarity with native build tools, like XCode, Gradle, Android Studio etc.
- Understanding of REST APIs, the document request model, and offline storage
- Experience with automated testing suites
- Ability to interpret and follow technical plans
- 4+ years of demonstrable experience with a portfolio of released applications on the Android play store.

what you'll do

- Build pixel-perfect, buttery smooth UIs.
- Leverage native APIs for deep integrations with Android platform.
- Diagnose and fix bugs and performance bottlenecks for performance that feels native.
- React Native moves fast, be on top of active developments in the area and leverage it appropriately.
- Maintain code and write automated tests to ensure the product is of the highest quality.
- Transition existing React web apps to React Native.

what you'll get

- Health Benefits
- Innovation-driven culture
- Smart and fun team to work with
- Friends for life
